

# CORE SESSION 3 : GROWTH & DEVELOPMENT

## DEVELOPMENT & ITS COMPLEXITIES : AN INDUSTRIAL POLICY BY ALL FOR ALL

ONE OF OUR BIGGEST FAILURES  
is THE INABILITY to ASK QUESTIONS

WHAT  
ABOUT  
WOMEN?

MOST OF THE  
ECONOMY & WORLD  
TRADE are  
DOMINATED BY MEN  
WOMEN are OFTEN  
NOT INVOLVED DUE to  
DISCRIMINATION

OPPORTUNITIES  
FOR WOMEN to

MEET THIS  
POTENTIAL GAP

FOR MANY POOR  
COUNTRIES, GROWTH/  
DEVELOPMENT,  
ECONOMIC CHANGE are  
JUST SCIENCE FICTION

THERE is AN  
IMBALANCE in  
REDISTRIBUTION

PEOPLE  
are SYSTEMATICALLY EXCLUDED  
FROM the AMAZING THINGS THAT are HAPPENING

WHAT are SOME of THE BIGGEST  
STRUCTURAL SETBACKS to HAVE a  
MEANINGFUL PATH TOWARDS a FUTURE  
with a GREATER GROWTH & DEVELOPMENT?

ENVIRONMENTAL SUSTAINABILITY  
SHOULD BE CONSIDERED when PLANNING  
for INDUSTRIAL POLICY

↳ GIVES NEW OPPORTUNITIES  
to DEVELOPING COUNTRIES —  
POTENTIAL for RENEWABLE ENERGY

ECONOMICS  
IS  
POLITICS

THE MARKET is  
DEFINED THOUGH  
POLITICAL  
MEANS,  
WE WILL NEVER  
HAVE A  
UTOPIA

ECONOMIST WILL PROBABLY  
BE POLITICAL IN DEEPER SENSE

SCIENCE FICTION is  
A VERY USEFUL  
FOOD EXPERIMENT  
for ECONOMICS

CHANGING  
the BIG PARAMETERS

"WHAT IF TECHNOLOGY is SO ADVANCED THAT NO ONE DIES?"

ONCE TECHNOLOGY  
CHANGES,  
INSTITUTES  
CHANGES
